From CRC Press : Cutaneous Lymphomas (Basic and Clinical Dermatology) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cutaneous Lymphomas (Basic and Clinical Dermatology):

Based on extensive clinical, histological, and experimental studies, this guide serves as an authoritative source of information on the epidemiology, etiology, pathogenesis, diagnosis, and treatment of cutaneous lymphomas-reflecting

the state-of-the-art in the field of cutaneous lymphomas-presented in the context of the brand-new WHO/EORTC-consensus-classification.

fascinating,a useful addition to the library of the practitioner. It presents a complex and difficult subject matter in an organized and comprehensible manner.-Doody's s
