Prabodh K. Gupta, Zubair W. Baloch : Cytohistology with CD-ROM: Essential and Basic Concepts (Cytohistology of Small Tissue Samples) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cytohistology with CD-ROM: Essential and Basic Concepts (Cytohistology of Small Tissue Samples):

This book represents the essentials of diagnostic cytopathology. Clinical research has confirmed the efficacy of the cytologic method of disease diagnosis and it is now considered the definitive method for identifying a wide array of malignancies. Cytohistology: Essentials and Basic Concepts comprehensively covers all the morphologic variations

and landmarks in cells that can potentially signal disease. Morphologies in cancer are the primary focus but all potential changes in infectious and inflammatory disorders are also covered in detail. There is a separate section on molecular and other ancillary diagnostic techniques in cytopathology. Conceptual drawings presented in a pansystemic approach and incorporating state-of-the-art techniques show basic cytomorphologic features essential for interpretation of cytopathology specimens. Diagnostic pitfalls and challenging intellectual nuggets are also presented. A supplementary CD with images in a downloadable format is included.

"This monograph will serve as an excellent introductory textbook for students in the field of cytopathology or for the seasoned cytopathology professional who just may need an update on criteria! It is an updated text that provides basic cytomorphologic concepts critical to the interpretation of cytologic specimens." The ASC Bulletin (2011), Donna K. Russell, University of Rochester Medical Center, Rochester

About the Author
Prabodh K. Gupta is Professor of Pathology and Laboratory Medicine at the University of Pennsylvania School of Medicine, Director of Cytopathology and Cytometry at the University of Pennsylvania Health System and Director of the Cytopathology Training Program at the Hospital of the University of Pennsylvania, PA, USA.
Zubair W. Baloch is Professor of Pathology and Laboratory Medicine at the University of Pennsylvania Medical Center, Philadelphia, PA, USA.
