From Chapman and Hall/CRC : Design and Analysis of Animal Studies in Pharmaceutical Development (Chapman Hall/CRC Biostatistics Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Design and Analysis of Animal Studies in Pharmaceutical Development (Chapman Hall/CRC

Biostatistics Series):

"Provides well-integrated, comprehensive coverage of all the major statistical designs and methods used for animal studies in pharmaceutical research and development. Demonstrates the correct way to interpret the results of animal studies in the risk assessment of biopharmaceutical products and clarifies detailed presentations with real-world examples. "

". . .This book series will provide comprehensive and unified presentations of statistical designs and analyses of important applications in biostatistics. . .A well-balanced summary will be given of current and recently developed statistical methods and interpretations for both statisticians and researchers/scientists with minimal statistical knowledge who are engaged in applied biostatistics. The series is committed to providing easy-to-understand state-of-the-art references and textbooks. In each volume statistical concepts and methodologies will be illustrated with real examples." ---Shein-Chung Chow, Series Editor . " . .a fine overview of material that an industrial statistician will need to know when seeking employment in preclinical areas of pharmaceutical research." ---Technometrics
