before purchasing it in order to gage whether or not it would be worth my time, and all praised Digital Neuroanatomy (06) by Leichnetz, George R [Paperback (2006)]:

0 of 0 people found the following review helpful. Amazing!!!By Yousif Hassan YousifVery useful and informative text. The best companion for higher certificates and clinical practice of neurology. Im so contented with it2 of 3 people found the following review helpful. Not hyperlinked; not detailedBy Brian E. MooreI imagined that a CD Atlas would allow a lot more linkage from one part to another. Also, the atlas is not as extensive and detailed as I imagined it would be. It's a disappointment.
