Freida L Carson : Histotechnology A Self-Assessment Workbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised Histotechnology A Self-Assessment Workbook:

0 of 0 people found the following review helpful. I love histology. There are typos throughout the book
By PixRvw What can I say...I love histology. There are typos throughout the book, but it's still a good study tool.
0 of 0 people found the following review helpful. Five Stars
By Susanne L. Just what I needed for school. Thank you Thank You Thank You!
0 of 0 people found the following review helpful. Excellent Study Tool
By Kristal Hazellie I purchased these to help study for my semester exam and they helped tremendously! I look forward to using to study for the ASCP board certifications. There are about 100 questions per chapter. Definitely worth the cost.

This book is intended to supplement the text, *Histotechnology: A Self-Instructional Text 3rd Edition*. It should be used to assess your knowledge after you have finished studying a chapter in the text. The questions are in several different formats to better assess your understanding of the theory. Although some of the questions may be similar to those on the Board of Certification examination, none of the questions in this book will appear as written on the examination. Neither ASCP nor the author makes any claim that successful completion of the questions in this book will ensure success on the certification examination.
