David N. Shier : Hole's Human Anatomy and Physiology- W/1 CD before purchasing it in order to gage whether or not it would be worth my time, and all praised Hole's Human Anatomy and Physiology- W/1 CD:

0 of 0 people found the following review helpful. amazing!By CassandraI got this book within 4 days of ordering!!! Im so happy that it came that quickly. Im also happy with the shape of the book, it will work great for my class. thank you soooo much.0 of 0 people found the following review helpful. False AdvertisingBy ChrisIllinois91The book arrived in a good amount of time. The book was in relatively good condition other than dark magenta highlighting all over inside the book: coloring in images and covering entire paragraphs. The title clearly says "Hole's Human Anatomy and Physiology- W/1 CD." There was no CD.1 of 2 people found the following review helpful. College textbooksBy hppygrl683My daughter needed the next newer version for her anatomy class; however, her professor applauded her for asking if this version would serve - saying that nothing essential had changed in anatomy since 1989 and that she could certainly use this version, although pics or diagrams might be on different pages. She has used it this semester with no problems and it was in great condition when we got it. She will need this through another semester, so it was a great value compared to the price of the newer version in the school bookstore.

Shier et al., continue the unparalleled tradition of Hole in the 11th edition. Hole was created for the introductory level student and assumes no prior science knowledge by placing emphasis on the fundamentals. This new edition updates a great AP classic while offering greater efficiencies to the user. The 11th edition of Hole also offers never before

technology that combined with the text offer users an incredible Course Solution! Technology like Anatomy and Physiology Revealed and ARIS (Assessment, Review, and Instruction System), a complete electronic homework and course management system bring unprecedented opportunities to the classroom whether on campus or at home!
