Eric Wise : Laboratory Manual for Seeley's Anatomy Physiology before purchasing it in order to gage whether or not it would be worth my time, and all praised Laboratory Manual for Seeley's Anatomy Physiology:

0 of 0 people found the following review helpful. Descriptive but could be better...By Paige KramerIt's a good book to accompany the lab sections of any anatomy and physiology class. It really helped in areas like bones and muscles and nerves and blood vessels. It provided great pictures to study for those section. I did have to do quite a bit of work beyond what the book could offer in areas like histology which was really thoroughly tested in the classes I took.0 of 0 people found the following review helpful. Nope!By Amanda AlexanderThe description of the item said minimal highlighting and use. There were pages that were written in and pages missing! Item was not as described.0 of 0 people found the following review helpful. Book shipped fine. Many of the lab exercise questions are already ...By JosiahBook shipped fine. Many of the lab exercise questions are already answered, but only ever in pencil. Very happy with my purchase.
