3 of 3 people found the following review helpful. dissappointedBy Katherine LewisThis is advertised as being 3 things for one price (\$136): The user guide, the text book and the access code. However, only two things actually are in the package: the text and access code. I doubt will even notice my feedback I left, but I did leave feedback stating false advertisement. Not sure I would have bought this book/pkg at this price if I knew it really didn't come with the use guide. Unfortunately, it is a bit late for me to try to send this back at this point because my class starts monday. I would like to be at least reimbursed for the portion of the \$136 that the user guide was supposed to be. Part of me doubt that would do that, but it would be very nice of to do so since they are listed as the seller.0 of 0 people found the following review helpful. didn't get the study guide which was advertised to be part of this "Cost-Saving Package." I don't really need the study guide but since it's being advertised to be part of the package, they should make it a point to actually provide the item. Other than that problem, the item arrived in great condition and was delivered on time.

TEXTBOOK ONLY. Good condition!! May present minor OR HEAVY shelf wear. Great customer service!!
