Jean Carruthers MD FRCSC, Alastair Carruthers MA BM BCh FRCP(LON) FRCPC : Procedures in Cosmetic Dermatology Series: Soft Tissue Augmentation with DVD, 2e before purchasing it in order to gage whether or not it would be worth my time, and all praised Procedures in Cosmetic Dermatology Series: Soft Tissue Augmentation with DVD, 2e:

8 of 8 people found the following review helpful. Not for learning techniques in depthBy FullOLifeI am a huge fan of Carruther's and really enjoy thier Botox book. I decided to add this one to my collection with the hopes of learning some advanced techniques, tips, tricks, etc. I was disappointed in that respect. It did not talk about "how to" very much other than for the nasaolabial folds and lips. No advanced techniques. The book touches on each type of filler on the

market, many not used in the US. It has a section for fillers in skin of color, a great section on how to do the various nerve blocks and a great section on complications. I have seen their material copyright infringed upon by aesthetic workshops/classes and their work is really the gold standard. The DVD is quick snippets of different procedures using various fillers. This will serve me as an excellent reference for the basics but if your looking for advanced training I'd suggest this is not the best book. 8 of 8 people found the following review helpful. a wonderful guide for physicians learning aesthetic procedures By Christopher B. Cutter I have purchased 4 of the books in this series and I am delighted with the content, presentation and supplied DVDs. If a practitioner wants to approach a new skill/procedure in his/her office, they will want hands-on symposiums, didactic lectures, and a reference textbook. This book and the ones on chemical peels, Botox, and laser txs are just what the doc ordered. You will not be disappointed. 0 of 0 people found the following review helpful. Four Stars By Fred U Good basic reference

This title in the PROCEDURES IN COSMETIC DERMATOLOGY SERIES presents up-to-the-minute, practical guidance on soft tissue augmentation techniques shaping today's practice. Succinctly written and lavishly illustrated, it focuses on procedural how-tos and offer step-by-step advice on proper techniques, pitfalls, and tricks of the trade so you can refine and hone your skills and expand your surgical repertoire. You'll find current, to-the-point guidance on the cosmetic use of traditional and new fillers edited by pioneers in the field, Drs. Alastair and Jean Carruthers. Implement the newest procedures into your practice immediately and confidently with the outstanding guidance you'll find in this volume of the PROCEDURES IN COSMETIC DERMATOLOGY SERIES. Get the best results from permanent fillers that stimulate the body's own collagen, new hypoallergenic fillers, injectable Zyderm and Zyplast collagen, and Gore-Tex chin, lip and cheek implants all with one concise, accessible volume. Visualize techniques clearly with a wealth of color illustrations and photographs that depict cases as they appear in practice. See how to proceed with a comprehensive instructional DVD containing video clips of techniques and procedures as well as the experts' hints and tips. Updated throughout with new chapters on fibroplasia * synthetic fillers * fillers for skin of color * and how to avoid and handle complications New and improved DVD material demonstrates techniques in practice Covers both temporary and permanent augmentations

About the Author Dr. Jean Carruthers, MD, FRCS (UK), FRCS (C), Diplomate of the American Board in Cosmetic Surgery, Fellow of the American Society of Ophthalmic Plastic and Reconstructive Surgery. Dr. Jean Carruthers is a Cosmetic Surgeon and a Clinical Professor of Ophthalmology with the Faculty of Medicine at the University of British Columbia (UBC). Dr. Carruthers has lectured worldwide on a variety of subjects pertaining to cosmetic ophthalmology, including the cosmetic use of the BOTOX procedure, which she co-founded with her husband, Dr. Alastair Carruthers, in 1987. Since this time, they have remained at the forefront of BOTOX research, development and education, publishing numerous articles using their data. BOTOX inhibits nerve impulses in muscles that cause everything from frown lines and wrinkles to sweating. Today, BOTOX is the most commonly performed cosmetic procedure in North America. They are now also researching the cosmetic use of the newest therapeutic neurotoxin, Botulinum type B, commercially produced as MyoBloc. Dr. Carruthers has published more than eighty peer reviewed scientific articles and twenty-eight scientific book chapters on a variety of topics, including the use of botulinum toxin and soft tissue augmenting agents, aesthetic lasers and cosmetic laser blepharoplasty. She is an International Editor for such publications as Dermatologic Surgery, the Journal of Cosmetic Laser Surgery and the American Journal of Cosmetic Surgery.
